Dear Resident

Due to on-going rodent infestation throughout the whole estate, we are proposing to close the bag refuse rooms on all floors and trial euro-bins externally at various collection points.

I have attached a map showing the areas (marked with an 'X') where they could be positioned.

It is important that we identify any disabled or otherwise vulnerable residents who may be adversely affected by this change.

It is proposed that all internal bin rooms will be retained and converted for use as secure resident storage for large items, such as prams and bicycles.

We would appreciate your comments regarding this by completing the return slip at the end of this letter and returning them to me by 8th March 2013. If you would prefer to email me your feedback then please do so using the email address above.

Your help and assistance in this matter will be very much appreciated.

Yours faithfully

Jill Carrington
Estate Services Supervisor
Kentish Town & Cantelowes Ward

Enc.

Return Slip

Flat No. _____

Date _____

- I do / do not want the bin rooms closed.
- I do / do not want the euro bins positioned as proposed. (Please circle your preference on the map provided as to where they should be positioned).
- I do / do not consider myself to have a disability which will affect my ability to take household waste to the new allocated collection point. (Please provide details below)

- I do / do not want the existing bag refuse rooms converted into secure resident storage rooms.

Any other comments
